Watermelon: 3 Juicy Benefits

A cool wedge of watermelon on a hot day. Refreshing for sure. But watermelon is more than just a seasonal treat. For instance:

1. **It is loaded with lycopene.** It's juice actually gave tomato juice a run for the money in a recent study. That's good news for your body, because early research suggests that lycopene may be a cancer crusher.
2. **It can make your skin pretty.** It is loaded with a key compound credited with helping skin's healing and regenerative processes.
3. **It's practically calorie-free.** With fewer than 50 calories in every cup, watermelon is one smart way to satisfy a sweet tooth. And with a whopping 141 grams of water per cubed cup, watermelon will keep you hydrated, too. Note: After it's picked, watermelon continues to ripen and build up antioxidants. So leave your watermelon out. After it's cut, it should be stored in the refrigerator for food-safety. From: <http://www.realage.com/ct/eat-smart/food-and-nutrition/tip/6448>

He was a certified Police Narcotics Dog having graduated from the Passaic County K-9 Academy. Cubby was such a gentleman, he loved his job, but especially he loved kids.
